## The Next Generation in Revenue Cycle Management.

Analytics designed to produce actionable  
data for your practice.

# Discover the Value of Real-Time Data.

**GAIN A DEEPER UNDERSTANDING OF YOUR REVENUE CYCLE WITH PROGNOS.**

Analytics are at the heart of Prognos' mission to empower healthcare in every community. Our goal is to help healthcare organizations thrive by driving financial and operational performance transformation. With Prognos, you can:

- Integrate disparate data sets with streamlined data processes to drive value across health systems and your practice.
- Access real data to enhance organizational planning, strategic financial management and forecasting.
- Develop deep analysis tools for everyone within your organization.

Prognos' analytics solutions include Physician Analytics, Hospital Analytics, Value-Base Care Analytics and Revenue Cycle Analytics.

## Implementing with you Every Step of the Way.

At ADVOCATE, we understand the challenges that practices face when implementing new solutions. Our commitment to you is to help make the transition as seamless as possible by providing:

- **A 100% forgivable loan** at signing to be used for Prognos infrastructure.
- **A smooth transition** with income guaranteed during implementation.
- **Guaranteed ongoing performance** through the joint development of key performance indicators.
